Redefining Custody

What Does Digital Custody Look Like?

As digital finance becomes too big to ignore, our industry is reimagining what it means to be a custodian. Our experts explore the new battleground in asset servicing.

GET THEIR PERSPECTIVE

Clarity Across Your Portfolio

State Street AlphaSM for Private Markets

Today's private markets are more accessible – and more desirable – to investors than ever before. But fragmented processes, teams, systems and data can make managing your public and private assets a challenge. Until now.

Speaking of Alpha

The Evolution of Outsourced Data Management

Tasked with managing a complex data infrastructure while minimizing costs, technology and operations teams are increasingly re-evaluating their models. We review how outsourcing can help investment firms and asset owners streamline operations and launch new products faster.
