Our approach to environmental, social, and governance (ESG) reporting

As we work to help everyone achieve more, we are committed to improving our world and reporting our progress. Throughout our organization, people at Microsoft work to conduct business in ways that are principled, transparent, and accountable.

ESG reports

Access key Microsoft reports organized by topic in one place, alongside related supplemental disclosures and resources.

Earn trust

At Microsoft, we’re optimistic about the benefits of technology, yet clear about the challenges. To drive positive impact with technology, people need to be able to trust the technologies and the companies behind them.

Support inclusive economic opportunity

We believe that economic opportunity should be inclusive— for every country, every community, every organization, and every person—including more than one billion people with disabilities. This starts with increasing access to technology, digital skills, and data, and extends to how we promote accessibility and support public health.

Create a sustainable future

Climate change is the defining issue of our generation, and addressing it requires swift, collective action and technical innovation. We've outlined ambitious commitments and detailed plans to achieve them, and we're helping others set and achieve their own climate goals.
