

BITCOIN MINING

Our Bitcoin mining operations include both Whinstone U.S.' facility in Rockdale, Texas and our hosted miners at Coinmint LLC's Massena, New York facility.

Whinstone U.S. is a wholly owned subsidiary of Riot Blockchain and consists of the single largest Bitcoin mining and hosting facility in North America, as measured by its 750 MW in developed capacity. **Riot currently has a deployed hash rate capacity of 4.3 EH/s utilizing approximately 136 megawatts (MW) of energy.**

Riot has secured purchase agreements for additional S19 miners scheduled for delivery and deployment by Q1 2023 which is expected to increase our self-mining hash rate capacity to 12.8 EH/s.
