The Corporate Group has two climate change targets for 2030: 1) GHG emissions intensity target (tCO2e/Million COP of Grupo Argos consolidated revenue — portfolio investment revenue) with a 2018 baseline. 2) Absolute target: reduce its CO2e emissions by 37% compared to a 2015 baseline. Both targets include Scope 1 and 2 emissions.

Disclaimer

The Corporate Group has two climate change targets for 2030: 1) GHG emissions intensity target (tCO2e/Million COP of Grupo Argos consolidated revenue — portfolio investment revenue) with a 2018 baseline. 2) Absolute target: reduce its CO2e emissions by 37% compared to a 2015 baseline. Both targets include Scope 1 and 2 emissions. A financial consolidation approach was used to consolidate emissions and revenues, discounting those corresponding to portfolio investments (Sura, Nutresa and Pactia) in accordance with GHG Protocol guidelines.
