About Us

We have a skilled and dedicated team of people in the UK, the majority of whom work at four main locations: Bournville in Birmingham; Uxbridge in West London; Sheffield in Yorkshire; and our Reading Science Centre in Berkshire, amongst other key manufacturing locations based across the UK.

So whether you want to continue a long tradition of excellence in chocolate-making, work at the cutting of research, or apply and expand your commercial talents, we could have just the career for you.
