About Aritzia

We use cookies to enhance your experience on our website. By interacting with our website, you're agreeing to our use of cookies.

[Learn more](#)

The Responsible Labor Initiative (RLI), a multi-industry, multi-stakeholder community of practice, is focused on ensuring that the rights of workers vulnerable to forced labour in supply chains are respected and promoted. Aritzia's partnership with RLI ties directly to our Sustainability Social Impact programs, which focus on respecting and upholding human rights throughout our supply chain. This further affirms our goal to embed responsible practices in everything we do.

The Responsible Down Standard (RDS) safeguards the welfare of geese and ducks that provide down and feathers used in products.

The Sustainable Apparel Coalition (SAC) is the apparel, footwear and textile industry's leading alliance for sustainable production. Members of SAC represent every link in the global supply chain, and develops the Higg Index suite of tools for standardized value chain sustainability measurement.

Textile Exchange is a global non-profit that works with members of the textile industry to drive transformation in preferred fibres, integrity and standards and responsible supply networks.

Fair Factories Clearing House (FFC) is a non-profit that facilitates informed responsible business decisions through an online platform designed to support monitoring of factories on labour, health and safety. As part of our Workplace Standards Program, Aritzia partners with FFC to provide data management and reporting capabilities for accurate and timely performance review and information analysis.
