## Sustainable Materials

Learn about the products we use and how they're sustainable.

Carpet: adhesive contains no Volatile Organic Compounds (VOCs) and carpet contains recycled content along with a recycling program for carpet replacements

Paint: low and/or no VOCs

Lighting: current lighting package as installed is 40% more efficient than LEED baseline for efficiency

Fixtures: no added uretha/formaldehyde

Plumbing: fixtures qualify for additional LEED points for efficiency (low flow)

Brick: contains recycled content

EMS: computer control program of lights and exterior signs

HVAC: use of Variable Fan Drives to reduce energy consumption and longer equipment life
