

GET INVOLVED

ERADICATING THE VIOLENCE THAT AFFECTS 1 IN 3 WOMEN WORLDWIDE

Based on 14 years of experience in this combat, our strategy is to act with key feminist partners at three levels to achieve real transformative change: supporting survivor-centered services, implementing programs to break the intergenerational cycle of violence with future generations and mobilizing both our internal and external networks to take action for gender equality. We pro-actively source long-term partnerships in the six main countries where the Kering Group operates and work hand in hand with a cross-section of local experts, from grassroots networks to specialist organizations to alternative models that can be scaled up.

SUPPORTING SURVIVORS TO LIVE FREE FROM VIOLENCE

For women to access the support they need worldwide, we partner with a cross-section of frontline, local organizations that provide vital and comprehensive needs-driven services, all while working towards rebuilding autonomy.

La Maison des femmes de Saint-Denis

La Maison des femmes de Saint-Denis (Mdf), established in 2016, is a unique haven for survivors of violence. In France, a woman dies every 3 days at the hands of her partner. Around the world over 200 million girls and women have undergone Female Genital Mutilation.
