LETTER FROM THE CHAIRMAN

For Salvatore Ferragamo, 2021 was a particularly significant year during which, rising to the daunting challenges posed by the pandemic, we laid the foundations for the beginning of a new chapter for our company, to project it into the future with increased strength, professionalism, and passion. We are determined to fully realize the massive potential we have created in several years of hard and illuminated work, rife with examples and important values – relying on the extremely valuable human capital that Salvatore Ferragamo has in every corner of the globe.
