

Loblaw apparel supply chain disclosure

We have taken significant steps to improve safety and transparency within our international supply chain, specifically as it relates to apparel manufacturing and materials procurement. We work with leading international apparel brands, non-governmental agencies and labour groups to improve working conditions for the millions of garment workers globally.

We are continuously expanding and improving the quality of our disclosure. This is the first year that we are making disclosure reporting under the SASB industry standards for Apparel, Accessories and Footwear Retailers and we have harmonized this factory listing with that reporting. With the exception of one vendor who did not approve the inclusion of their factories in this disclosure, this factory listing includes all Tier 1 factories who have made Joe Fresh branded end-product for delivery in 2021, including (but not limited to) apparel, accessories, jewelry, umbrellas, and footwear. The listing will be updated annually in conjunction with SASB reporting. We believe that by providing this information to consumers and our stakeholder partners, we can better coordinate our efforts and support a more sustainable apparel industry.
