LOWES MODERN SLAVERY STATEMENT

As a leader in the retail industry, Lowes takes its ethical and social responsibilities seriously. We are committed to upholding human rights and fair working conditions and ensure that our suppliers adhere to our legal, moral and ethical standards that are governed by the 2018 Modern Slavery Act.

We ensure that all products we purchase come from ethical sources and that we, by association or otherwise, are not party to any illegal or unethical manufacturing practices.

We have a range of measures in place that form our responsible sourcing guidelines. All employees of Lowes, or agents working for Lowes, must always comply with these guidelines. They must ensure that any supplier, either local or offshore, must always fully comply.

The following represents the minimum requirements Lowes requires in regards to all our suppliers.

All suppliers, either local or offshore, must comply with all laws, regulations, building codes, and industrial regulations of the country or countries in which they operate, always.

Every factory that produces garments for Lowes must provide Lowes or its agents with their annual compliance certificate.

Work conducted for Lowes cannot be subcontracted to another supplier. To ensure this every production run is checked both during manufacturing and at the time of shipping to ensure compliance as part of our quality assurance process.

Lowes staff members conduct inspections of the facilities and working conditions for all suppliers in the countries we source from.

Additional to this, Lowes has engaged third party provider 'Intertek' whom is a globally recognised leader in governance and assurance to conduct Audits of our factories and validation on previously obtained audit assessments.

Lowes will not accept, under any circumstances, any of the following practices from the suppliers we deal with:

- Child labour
- Unsafe working conditions
- Illegal conduct
- Corruption
- Excessive work hours
- Discrimination
- Forced labour of any kind
- Denial of the right of freedom of association and of collective bargaining.
- Inhumane treatment

Lowes' goal is to only engage suppliers who operate under acceptable human rights conditions and protect workers' human rights. To monitor this, every supplier is subject to an independent audit on an annual basis. Audits conducted under the Business Social Compliance initiative (BSCI) which is an initiative of the Foreign Trade Association (FTA) are an example.

The audit covers the following areas.

- Producer's background
- Management practice
- Health and social facilities
- Occupational Health and Safety
- Dormitories (if applicable)
- Environment
- Documentation
- Working hours
- Compensation
- Child labour
- Young Workers
- Forced labour
- Disciplinary measures
- Prison labour
- Freedom of association
- Collective bargaining
- Discrimination/harassment and abuse
- Working conditions.

Lowes will not source from a manufacturer who fails one of these annual audits.

Lowes seeks to form close, long-term relationships with its providers to better enable us to ensure that these guidelines are enacted.

This statement is made pursuant to section 11 (2) of the Modern Slavery Act 2018 and constitutes the Lowes – Manhattan Pty Ltd's slavery and human trafficking statement for the financial year ending 2021 and was approved by the CEO on 30th of November 2021 .

REPORTING ENTITY

ENTITY: LOWES - MANHATTAN PTY LTD

ABN: 31 000 307 666

Lowes is a leading Australian menswear, young menswear and schoolwear retail chain offering well-made clothing at affordable prices.

As a family-owned business, Lowes is part of a small but elite group of companies, which have been in business for 123 years and still 100% Australian owned.

For over a century, the company has been built on integrity, forward planning and financial success. Today, with 190 stores nationwide, it continues to expand steadily as it has for many years.

In a brand conscious society, while many outfitters have paid dearly to charge more for a somewhat pretentious, upmarket image, Lowes have maintained a simple, down to earth integrity in the way they have conducted business for over a century. Since it was founded in 1898, it has grown from a traditional "value for money" menswear store to become a well-known Australian icon in its own right.

Today, Lowes continues to offer the public a range of well-made clothing at affordable prices. Lowes has expanded from its traditional offering of menswear and business wear to offer a full range of school wear, menswear, sportswear, active wear, footwear and work wear.

Lowes Annual turnover ranges between 260 Million and 240 million with on average six million transactions per year.

**Annual turnover
\$258,090,000.00**

RISK

IDENTIFYING, MITIGATING & REMEDIATING RISK OF MODERN SLAVERY

Risks of modern slavery in any international retail supply chains are dynamic and complex. We are constantly reviewing risks to prioritise our efforts where there is greatest impact to people in our operations and supply chain.

Since 2019, we have conducted risk assessments designed together with our advisor partner Intertek, a compliance and sustainability solutions provider. These assessments are informing our Responsible Sourcing Program and areas of focus. This year, we focused on supply chains. These assessments focused on the inherent risks of exploitation involved in producing the products in our supply chains.

Lowes Menswear acknowledges the following modern slavery risks as most salient in our supply chains.

The types included, forced labour, debt bondage, deceptive recruiting for labour, forms of child labour, restrictions of movement, intimidation, threats and human trafficking.

We do not directly employ any staff overseas so this lowers modern slavery risks within our direct team. Therefore, our operational risk assessment focused on the only areas of the business that use contracted labour or service providers whose workforce engaged with us in overseas locations. We have less direct visibility and control over

these workers and their employment terms. We have visited these locations and undertaken assessments of the work environments to ensure they comply with local legal conditions and do not provide conditions for potential risks for modern slavery conditions. We are working on improving auditing in this area as it is new operational environment.

The products we sell in our stores and online are sourced from 9 countries. Each of these products and sourcing countries presents a different set of human rights challenges, including risks of modern slavery. We source products from suppliers that are both vendor and non-vendor branded. With our own branded products we are more directly connected to these products because suppliers are producing and packing products directly for our business, which means we have greater connection to the workers and influence to remediate breaches.

Generic, wholesale or non regular suppliers will be subject to further risk assessment. Similarly where our suppliers themselves source their supplies from, such as cotton, provides additional levels of risk.

This risk assessment will allow us to "segment" suppliers into three groups: priority, moderate and minimum. Each segment will have different due diligence requirements based on associated risks. We are still developing our supplier segmentation methodology.

Mitigating and remediating risks of modern slavery is a high priority and we are developing new Policy frameworks to build upon our long standing practices of strict supplier agreements and regular 3rd party audits in the country of origin for our products.

We are enhancing our set of policies and procedures that articulate our values, ways of working and expectations of our suppliers that will be reviewed regularly. This policy framework will ensure that our suppliers clearly understand our expectations.

Strengthening supplier contracts is one of the key ways in which we articulate our human rights expectations and control the potential risk of modern slavery arising in our global supply chain is through our contracting process with our direct suppliers. Building on existing Responsible Sourcing provisions, modern slavery specific provisions have been incorporated in our many of our trade procurement contracts and Vendor Trading Terms. We intend to have these provisions in all agreements by 2021.

In the future, we intend to use a Slavery Compliance Statement, which is a supplier modern slavery compliance confirmation. We request the supplier to sign and provide this statement to Lowes on the commencement date of an agreement and on each anniversary of the commencement date during the agreement term.

“STRENGTHENING SUPPLIER CONTRACTS IS ONE OF THE KEY WAYS IN WHICH WE ARTICULATE OUR HUMAN RIGHTS EXPECTATIONS AND CONTROL THE POTENTIAL RISK OF MODERN SLAVERY”

Lowes recognises that it may contribute to a greater risk of slavery in our supply chain by placing pressure on suppliers by such means as asking for reduced costs or better quality. We will be factoring this into our future risk assessment profiles for suppliers

We recognise the importance of building greater understanding of modern slavery risks and our requirements with the team members who are responsible for supplier relationships and oversight so that they are equipped to provide guidance to our partners to comply. We have and will continue to raise awareness via training for all team members in this area.

CONSULTATION WITH CONTROLLED ENTITIES.

Where Lowes held a “controlling interest” in an entity (MFC) we met with the entire team to educate, raise awareness and set our expectations in mitigating modern slavery risks. We provided documentation outlining our expectations and will provide a copy of this document upon its completion. Lowes does not have a controlling or any other equitable interest in any other entity.

Lowes undertakes that if we do in the future look to taking a controlling interest in another entity, a full risk assessment and audit for risk of modern slavery will form of our assessment before we take control and based on that we will undertake the appropriate actions.

CONTINUOUS IMPROVEMENT

Early 2020 Lowes embarked on a continuous improvement approach well before any sanctioned reporting and compliance. In order to officially report and demonstrate our commitment to respecting human rights, Lowes CEO, Mrs. Linda Penn developed a 'Lowes panel' to formalise agreements with all sectors of our Supply chain and goes to market to engage 'Intertek' to set strategic benchmarks to monitor activities in accordance with the Modern Slavery Act 2018

LOWES PANEL FOR MORDERN SLAVERY COMPLIANCE

Lowes is committed to bilateral long-term outcomes that benefit suppliers, schools and our consumers. We recognise robust negotiations are inevitable in business practice and contribute to innovation, efficiency and the long-term sustainability.

Lowes policy has always been for the suppliers to provide certification of factory audits as evidence of compliance.

These were usually in the forms of various certificates:

- BSCI
- SMETA
- QIMA

The Panel consists of 4 leadership members whose areas govern Technical operations, *Sarann Ryan*, Merchandise Control, *Michael Manios*, Human Resources *Jason Heap* and Head of school Operations *Tim Bryant*.

The panel meets every quarter to initiate, forecast and remediate on all supply chains.

This consists of;

- Reviewing and aligning all international standards and policies by communicating standards and requirements to our agents and business partners.
- Evaluating by continuing to monitor compliance by conducting a pre-sourcing assessment with our agents. All buyers and Merchant controllers submit any new supplier to the panel for review.

- Capturing the performance of our factories by reviewing the outcomes of all audits conducted by Intertek
- Schedule audits for the next fiscal year.

LOWES FORMALLY ENGAGES INTERTEK TO FACILITATE ALL ACTIVITIES

The panel recognised the need to engage a third party to validate audits.

Lowes understood the need to consult with third party resources and databases, by utilising consultants and having them evaluate slavery this would broker an arrangement to remediate identified deficiencies and where necessary terminate supplier factories that refuse / fail to comply with procedures and guidelines

Intertek results yield several decision-making factors based on previous audits and how these dictate future frequency of audits. Audits are scheduled in advance with the suppliers in order to foster relationships of co-operation and trust, we only suggest unannounced audits when we suspect violations.

RECYCLE | UPCYCLE | DONATE

Our waste Management approach is complicated comparative to regular fast fashion. Our garments are bespoke distinctive wear that cannot be resold or reused based on copyright and contractual obligations.

Our continuous improvement committee join the Lowes Modern Slavery panel on request to pitch for new and improved methods to handle waste management and sustainability.

This paved way for an affiliate program monitored by our continuous improvement committee to have our textiles recycled and prevented from landfill.

WORN UP - UPCYCLING

ABN: 87 610 520 619

[HTTPS://WORNUP.COM/](https://wornup.com/)

Worn up grew out of Sustainable Schoolwear. Worn up which had been making school and corporate uniforms since 2016 decided to take back the uniforms they made so they didn't go to landfill. Worn up no longer produces uniforms but now exclusively collaborates with rag traders and big retailers to identify products that can be reconstituted into newer products, these products are categorized as "up-cycled" as they can be broken down and repurposed many times.

Worn Up and the Textile Rescue Program work with Schools, corporates, Councils and sports associations to keep as many uniforms out of landfill as possible and turn them into a raw material for new products.

Worn up and Lowes began collaborating July 2020 and was the first major retail school supplier to commit to a 30 carton per month minimum to reduce and donate fabric for the upcycle program.

Worn up as a collective have achieved the following to date.

DIVERTED FROM LANDFILL: 50 TONNES

M3 SAVED: 500 CUBIC METRES OF LAND SAVED

ROUGH CO2 KG/ DIVERTED: 3,750 CO2/KG EQUIVALENT

LOWES GATEWAY PROCESS

MENSWEAR & SCHOOLWEAR PRODUCTION AND DEVELOPMENT TRAINING AND INTERNAL ACCOUNTABILITY

Our commitment to upholding global standards require that all areas liaising with external suppliers/ agents must adhere to company sanctioned policy. All staff at head office are required when onboarded into the company to review our core policies. Lowes has an extensive learning management system regulated by HR called the Lowes Academy.

INTERNAL TRAINING

Lowes Academy is for all 1206 staff and is sectioned into core areas managed by our internal intranet called the Lowedown.

All staff here have individual user profiles that monitor the training modules and the timeframe for completion.

These modules include all work health and safety modules, compliance and ethics training, our company may take disciplinary action against any worker who violates our policy.

WHISTLEBLOWER

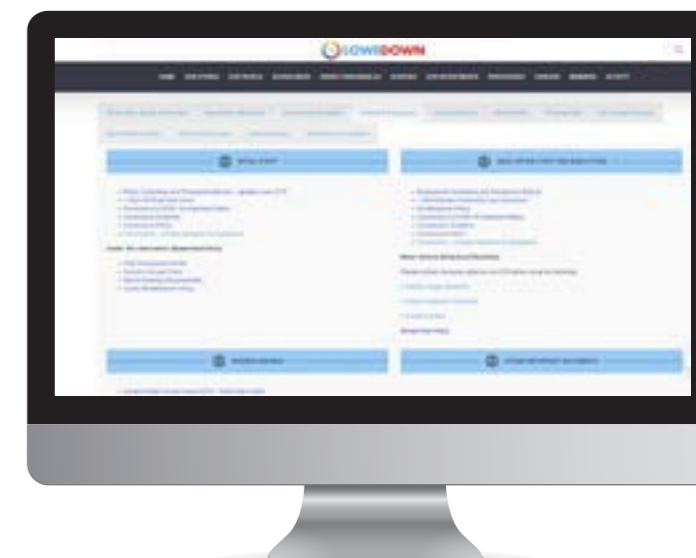

We have a whistle-blower hotline accessible on the Lowedown that is available to all staff and this has now been extended to agents and factories.

GATE PROCESS

Lowes developed The "Gate Process" which is a project management technique to keep all buyers, product developers and planners accountable in the developing, sourcing and purchasing phases. The gateway is reinforced at the leadership level, it unpacks the process to make sustainability and waste management a key performance indicator for all personnel involved.

The Gate way is divided over a few stages.

These stages are separated by 'gates'. Each stage is the decision point for whether or not to proceed to the next stage. This decision is made by a manager or steering committee. The quality of the idea, finances, timeframe and succession rate is all assessed at each of the gates. After each gate, one of the following decisions can be made:

- **Go** – Concept is good enough to proceed to the next stage
- **Kill** – Concept is not good enough to develop further and is therefore shut down
- **Hold** – Concept is not good enough to continue with development at this time but has enough merit to not be shut down. It will be put on hold to possibly be resumed at a later date.

The Gate Process consists of several stages, which are connected to each other by gates. Each stage is designed to collect specific information:

- **Stage 1: Scoping/Range Justification/ Feasibility**
- **Stage 2: Design**
- **Stage 3: Development & Wear Trial**
- **Stage 4: Final Sign Off/Launch**

Gate 1: Scoping/ Range Justification/ Feasibility

- Concept – Describe idea and identify where it fits in core range/ our fashion demographic
- Design consideration - specify styles, colours, sizing, fit, features
- Proposed deletions – suggest any existing styles/ SKUs for deletion (e.g., style it will replace or styles that are not selling)
- Rationale – specify/justify reason(s) for launching and how it will grow the business (sales, profits etc.)
- Competitor analysis – present any competitor styles that have similar products already in their range.
- Competitive advantages – list the point of differences between our product and competitor’s product (e.g., features and benefits, price point etc.)
- Target financials – target price per unit, proposed volume (per colour), proposed budget
- Agreed timing – to be discussed during Gate 1 (e.g. launched at the best time of year to ensure peak sales).
- Sign off

Gate 2: Design

- Design – present to team: research, initial design sketches, fabric options, colour options and costings.
- Sign off

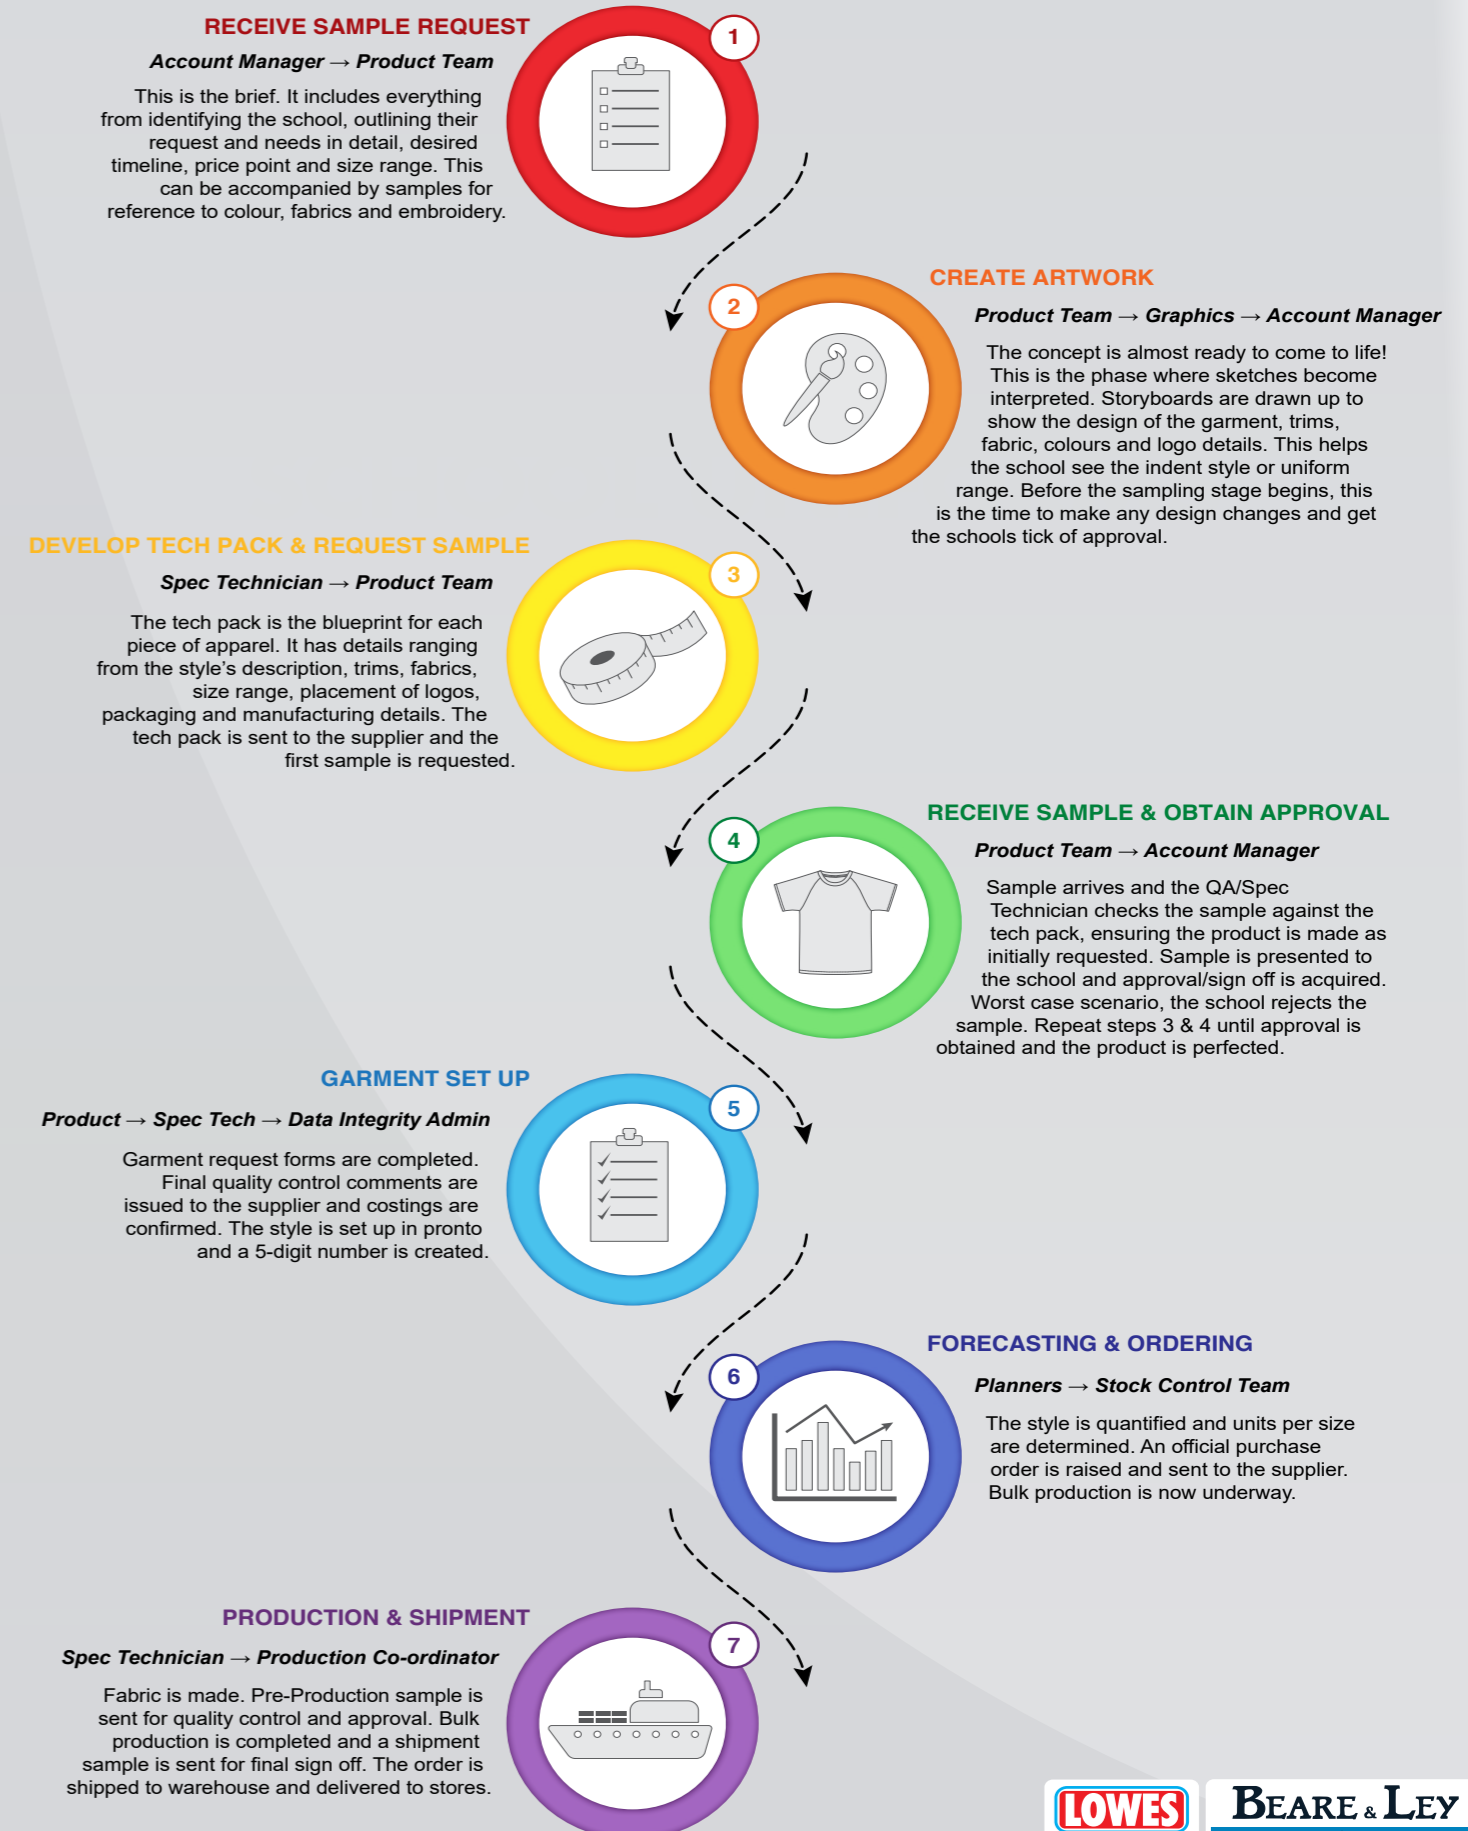

Gate 3: Development & Wear Trial

- Create specifications
- Arrange 1st development samples of the design in selected fabrics (jump size set)
- Conduct fit and wear trials (on numerous body shapes and sizes)
- Assess fit and wear trial feedback
- Revise specifications and organise 2nd development samples (if required)
- Present to team
- Sign Off

Gate 4: Final Sign Off/Launch

- Confirm styles, colours and order quantity
- Sign Off: price per unit, volume (per colour), total cost of order, GP%
- Issue final QC report to supplier
- Garment Set Up
- Raise Purchase order
- Lock in Ex/factory date

Responsibilities

1.1 Whistleblowers

Protection is available to Whistleblowers who disclose wrongdoing that is made with grounds reasonable to believe it is true which include but not limited to:

- Identity protection;
- Protection from detrimental acts or omissions
- Compensation and other remedies; and
- Civil, criminal and administrative liability protection.

To ensure that all employees are treated fairly and that resources are not wasted, protection is not available where the disclosure is:

- Trivial or vexatious in nature with no substance. This will be treated in the same manner as a false report and may itself constitute wrongdoing.
- Unsubstantiated allegations which are found to have been made maliciously, or knowingly to be false. These will be viewed seriously and may be subject to disciplinary action that could include dismissal, termination of service or cessation of a service or client relationship.

A Whistleblower must provide information to assist any inquiry/investigation of the wrongdoing disclosed.

Making a disclosure may not protect the Whistleblower from the consequences flowing from involvement in the wrongdoing itself. A person's liability for their own conduct is not affected by their report of that conduct under this policy. However active cooperation in the investigation, admission and remorse may be taken into account when considering disciplinary or other action.

Even though a Whistleblower may be implicated in the wrongdoing they must not be subjected to any actual or threatened retaliatory action or victimisation in reprisal for making a report under this policy.

Further, a Whistleblower may choose to remain anonymous while making their disclosure, over the course of the investigation and after the investigation is finalised. A Whistleblower if they do not want anyone to know their identity including officers may adopt a pseudonym for the purpose of their disclosure.

1.2 Whistleblower Protection Officer

If the Whistleblower wishes, the WHS/RTW Officer may be appointed to support and provide protection to the Whistleblower according to this policy.

The protection officer must have a direct reporting line to a governance officer from an area of the organisation that is independent of line management in the area that is the subject of the report of wrongdoing.

The protection officer will provide mentoring and other support deemed necessary.

The Protection Officer is responsible for keeping the Whistleblower informed of the progress and outcomes of the inquiry/investigation subject to considerations of privacy of those against whom a disclosure has been made.

1.3 Identity Protection

This will state the measures and/or mechanisms for protecting the confidentiality of a Whistleblowers identity (where applicable):

- All personal information or reference to the individual witnessing and event will be redacted;
- The discloser will be referred to in a gender-neutral context;
- Disclosures will be handled and investigated by qualified staff;
- All paper and electronic documents and other materials relating to disclosures will be stored securely;
- Access to all information relating to a discloser will be limited to those directly involved in managing and investigating the disclosure;
- Only a restricted number of people who are directly involved in handling and investigating a disclosure will be made aware of a discloser's identity (subject to the discloser's consent) or information that is likely to lead to the identification of the discloser;
- Communications and documents relating to the investigation of the disclosure will not be sent to an email address or to a printer that can be accessed by other staff; and
- Each person who is involved in handling and investigating a disclosure will be reminded about the confidentiality requirements, including that unauthorised disclosure of a discloser's identity may be a criminal offence.

1.4 Whistleblower Governance Officer

The Whistleblower Governance Officer is the Head of People. The Head of People will receive whistleblower disclosures of wrongdoing and overseeing resolution.

The Whistleblower Governance Officer must (after a reasonable preliminary inquiry):

- Protect the identity of the Whistleblower;
- If the Whistleblower agrees to appoint the WHS/RTW Officer, the WHS/RTW Officer will provide support to the whistleblower
- Be satisfied that each disclosure of wrongdoing they received was appropriately inquired into or investigated

- Be satisfied that action taken in response to the inquiry/investigation is appropriate to the circumstances
- Provide governance oversight over any inquiry/investigation into retaliatory action taken against the Whistleblower

Alternatively, if the disclosure contains allegations against any Lowes Manhattan Pty Ltd executive or where the Whistleblower has a reasonable belief that the Whistleblower Governance Officers are not sufficiently independent a report may be made to the Managing Director of Lowes Manhattan Pty Ltd.

1.5 Protected Disclosures Coordinator

The Protected Disclosures Coordinator is the Head of People. The Head of People will receive all information about all whistleblower events and performs the following functions:

- Support the welfare of disclosers
- Arranges for an inquiry/investigation into the disclosures made by the Whistleblower
- Ensures appropriate government agencies are notified about Whistleblower events where required
- Maintains a Whistleblower Register for trend analysis and to identify systemic issues requiring attention

1.6 Investigator

Lowes Manhattan Pty Ltd will investigate all matters reported under this policy as soon as practicable after the matter has been reported. The Protected Disclosures Coordinator who is the Head of People will appoint either an internal or external investigator to investigate the matter. Lowes Manhattan Pty Ltd may not be able to undertake an investigation if it is not able to contact the discloser. An example is if a disclosure has refused to provide, or has not provided, a means of contacting them.

The internal investigator may be the Governance Officer and or an appropriate person as appointed by the Governance Officer.

1.7 Investigation

The investigation will be conducted in an objective and fair manner, and as is appropriate having regard to the nature of the disclosure and circumstances. Where a report and/or matter is submitted anonymously, Lowes Manhattan Pty Ltd will conduct the investigation and its enquiries based on the information provided. Further, anonymity can at times prevent the business from taking the issue further if Lowes Manhattan Pty Ltd is not able to obtain further information from the source of the report.

1.8 Managers and Line Supervisors

All managers and line supervisors who receive a disclosure about wrongdoing must notify the governance officer and provide particulars and maintain confidentiality at all times.

1.9 Protection from detrimental acts or omissions

Lowes Manhattan Pty Ltd may refer to the following measures and mechanisms for protecting disclosers from detrimental acts or omissions (where applicable):

- processes for assessing the risk of detriment against a discloser and other persons (e.g. other staff who might be suspected to have made a disclosure), which will commence as soon as possible after receiving a disclosure;
- support services (including counselling or other professional or legal services) that are available to disclosers;

- strategies to help a discloser minimise and manage stress, time or performance impacts, or other challenges resulting from the disclosure or its investigation;
- actions for protecting a discloser from risk of detriment—for example, the business could allow the discloser to perform their duties from another location, reassign the discloser to another role at the same level, make other modifications to the discloser's workplace or the way they perform their work duties, or reassign or relocate other staff involved in the disclosable matter;

1.10 Reporting a Disclosure

Lowes Manhattan Pty Ltd will need to assess each disclosure to determine whether:

- Disclosures will be handled confidentially,
- Each disclosure will be assessed and may be subject of an investigation;
- When an investigation needs to be undertaken, the process will be objective, fair and independent;
- It qualifies for protection; and
- A formal, in-depth investigation is required.

(a) Internal Whistleblowers

(Current or former employees, directors, contractors or consultants)

Internal Whistleblowers are encouraged to report their concerns to the Whistleblower Governance Officer to seek an immediate response. Where the internal Whistleblower believes this is not appropriate, then an alternative reporting mechanism is to report the matter to the Whistleblower Protection Officer.

(b) External Whistleblowers

(These individuals include: clients, customers, suppliers)

Where an external Whistleblower is reluctant to report it to the Governance Officer or the Protections Officer, they can report their concerns to the Managing Director of Lowes Manhattan Pty Ltd.

(c) Anonymous Reporting

Anonymous reports of wrongdoing are accepted under this policy. Anonymous reports have significant limitations that may inhibit a proper and appropriate inquiry or investigation. These limitations include the inability to provide feedback on the outcome and/or to gather additional particulars to assist the inquiry/investigation. Specific protection mechanisms may be difficult to enforce if you choose to remain confidential.

1.11 Protection

Lowes Manhattan Pty Ltd will adopt the principle of protection of the identity of internal and external Whistleblowers.

1.12 Confidentiality

Lowes Manhattan Pty Ltd will not disclose a whistleblower's identity unless:

- The disclosure is required or authorised by law; and
- It is necessary to further an investigation and the Whistleblower consents to the disclosure.

Lowes Manhattan Pty Ltd will take reasonable precautions to store any records relating to a report of wrongdoing securely and to restrict access to authorised persons only.

1.13 Retaliation

Lowes Manhattan Pty Ltd will not tolerate any retaliatory action or threats of retaliatory action against a Whistleblower or against a Whistleblower's colleagues, employer (if a contractor, consultant or supplier) or relatives. Any retaliation in reprisal for a disclosure made under this policy will be treated as a breach of serious misconduct and will result in disciplinary action.

A Whistleblower must not be disadvantaged or victimised for having made the report by:

- Dismissal or termination of employment, services or contracts
- Demotion of contract
- Discrimination, victimisation, bullying and harassment
- Aforementioned matters above.

1.14 Disclosure Management

Lowes Manhattan Pty Ltd recognises that individuals against whom a report is made must also be supported during the handling and investigation of the wrongdoing report. The business takes reasonable steps to treat fairly any person who is the subject of a report, particularly during the assessment and investigation process in accordance with an established support protocol which may be extended to include appointing an executive member of the leadership group to provide support.

Where a person is identified as being suspected of possible wrongdoing, but preliminary inquiries determine that the suspicion is baseless, no evidence or unfounded and that no formal investigation is warranted, then the Whistleblower will be informed of this outcome and the matter laid to rest.

Lowes Manhattan Pty Ltd will give its full support to a person who is the subject of a report where the allegations contained in the report are clearly wrong

Therefore, where an investigation does not substantiate the report, the fact that the investigation has been carried out, the results of the investigation and the identity of the person who is the subject of the report must be handled confidentially.

Further, where an investigation is conducted and the investigator finds there may be a case for an individual to respond, the Investigator must ensure that a person who is the subject of a disclosure:

- Is informed of the substance of the allegations;
- Is given a fair and reasonable opportunity to answer the allegations before the investigation is finalised;
- Has their response set out fairly in the Investigator's report; and
- Is informed about the substance of any adverse conclusions in the investigator's report that affects them.

1.15 Failure to Comply

Any breach of this policy may result in disciplinary action that could result in severance from Lowes Manhattan Pty Ltd.
