FALC EAST KNJAEVAC

Since 2004, when the company Falc East Serbia bought old factories “Leda” in city of Knjazevac and “Toza” in Zrenjanin and “Fruska Gora” in Ruma, in the process of modernization of production technology nearly five million euros was invested. Today, factory Falc East Serbia employs more than 1300 workers. They annually produce 1,200,000 pairs of shoes for children and adults. Our company is a good example of how it is possible to put faltering footwear industry on healthy feet.

Production program in Knjazevac takes place in modern halls, a total area about 20 thousand square meters. Halls are equipped with the most advanced system for heating, ventilation and air conditioning, which provides favorable conditions for the performance of all operations.

In manufacturing plants Falc East Ltd. Knjaževac carried out a complete production process – from raw material to finished shoes: modeling, tailoring, sewing, assembly, inspection and packaging.

Falc East Ltd. Knjazevac has organized production of blades for cutting, production of shoe soles, eaves and tools made of aluminum.

In addition to manufacturing plant, Falc East Ltd. Knjazevac has, in the factory area, extremely popular retail store, in which toddlers and children from all over Serbia are supplied with top fashion footwear.

The Company Falc East Ltd. Knjazevac produces about one million pairs of shoes for children and adults every year. Almost the entire production is exported to USA, European Union, United Arab Emirates. China and India.
