Unified platform
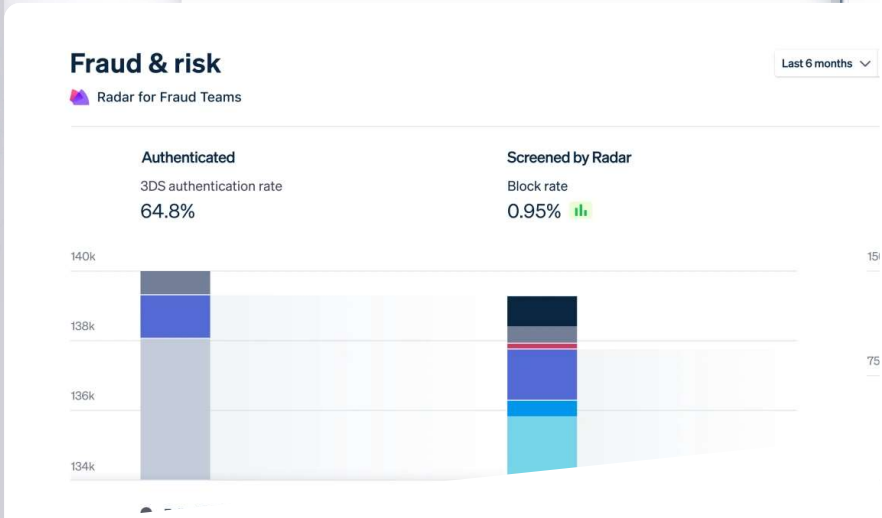

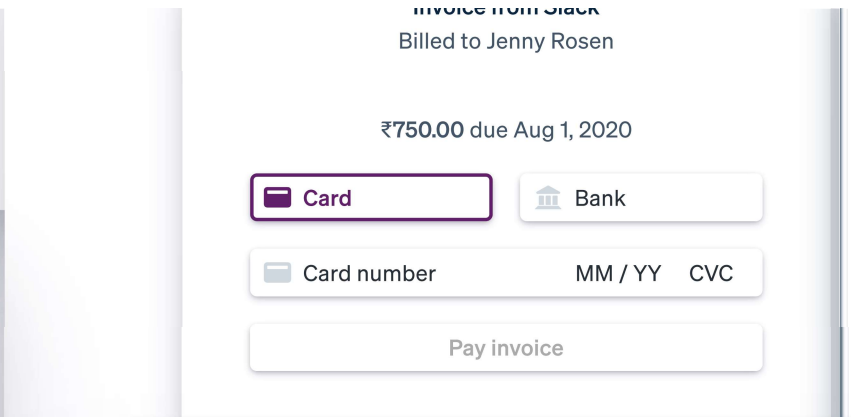

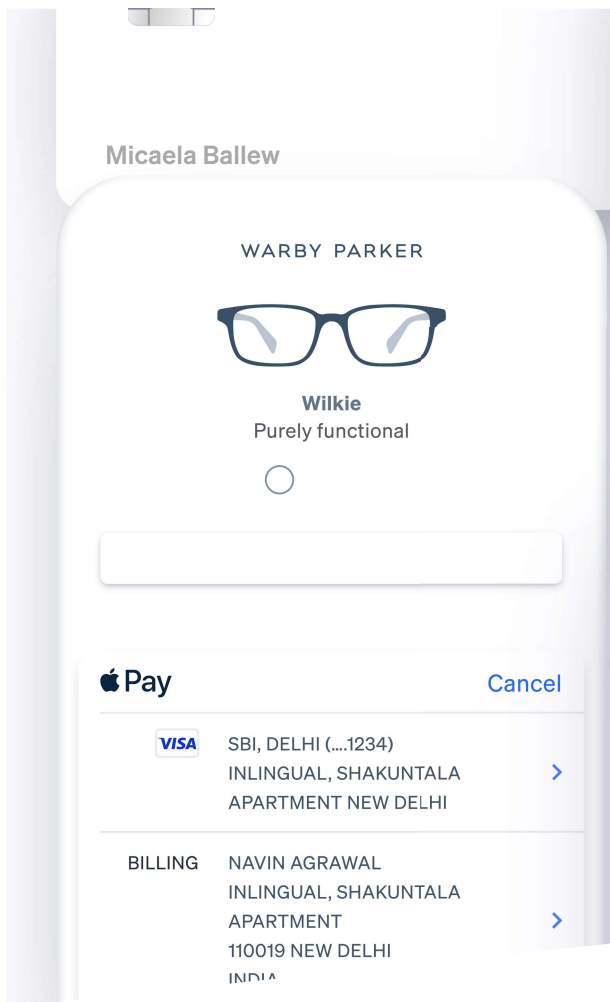

A fully integrated suite of payments products

We bring together everything that's required to build websites and apps that accept payments and send payouts globally. Stripe's products power payments for **online and in-person retailers**, **subscriptions businesses**, **software platforms and marketplaces**, and everything in between.

We also help companies **beat fraud**, **send invoices**, **issue virtual and physical cards**, **get financing**, **manage business spend**, and much more.

Why Stripe

A technology-first approach to payments and finance

Close to the metal

From **direct integrations** with card networks and banks to checkout flows in the browser, we operate on and optimize at every level of the financial stack.

Fastest-improving platform

We release **hundreds of features** and improvements each year to help you stay ahead of industry shifts. (On average, we deploy our production API 16x per day.)

Battle-tested reliability

Our systems operate with **99.99%+** uptime and are highly scalable and redundant. Stripe is certified to the highest compliance standards.

Intelligent optimizations

Our machine learning models train on **billions** of data points and help increase revenue across conversion, fraud, revenue recovery, and more.

Global scale

The backbone for internet business

For ambitious companies around the world, Stripe makes moving money as simple, borderless, and programmable as the rest of the internet. Our teams are based in dozens of offices around the world and we process hundreds of billions of dollars each year for **startups to large enterprises**.

250M+

API requests per day, peaking at 13,000 requests a second.

90%

of U.S. adults have bought from businesses using Stripe.

135+

currencies and payment methods supported.

35+

countries with local acquiring, optimizing acceptance rates

Ready to get started?

Explore **Stripe Payments,** or create an account instantly and start accepting payments. You can also contact us to design a custom package for your business.
