Project Manager, Information Technology (IT) in Houston:

Pros: Telecommute. Flexible hours. Vacation paid. Sick paid.

Cons: Lack of training. No over time paid.

Decent security, not much technical excellence.

Information Technology (IT) Architect in St. Louis:

Pros: Very good work-life balance and good benefits, pretty good job security. Sometimes elevated access to vendors. Generally flexible with telecommuting and work schedule.

Cons: Very slow technical evolution. Technical excellence is not highly respected, more a game of corporate politics.
