At Varner, we have a strong focus on sustainable solutions. This means that we make conscious choices to be responsible towards people, the environment and society, from design and development to customer usage. Being responsible is one of the core values at Varner. We have a global footprint. This is why our sustainability strategy is termed Nordic Spirit, Global Impact.

We care about people. Our aim is to be a preferred and responsible employer and to create an inclusive and inspiring workplace for all employees. We want to contribute to fair conditions for people connected with our business, in particular workers in our supply chain.

Circularity is the future of fashion, and we will actively work towards implementing circular strategies into our choice of materials and designs. We take responsibility for our climate impact and are working to both document and reduce it in all areas of our business.

We see connecting with our consumers as a vital element towards delivering on our sustainability ambitions. With transparency as an important factor in our communication, we aim to help consumers make informed choices.

Diligence for responsible business conduct in order to address negative impacts associated with our business. You can read about our due diligence process in the People section, or in our Sustainability Report from page 34.

If you are seeking information about our efforts on climate and environment, you can visit our Environment, Animal Welfare and Product and Materials sections. You can also read more in our Sustainability Report from page 92.

If you are not able to find the information you are looking for, please contact Varner's Sustainability Department at Sustainability@varner.com
