QUIKSILVER EXISTS TO INSPIRE PEOPLE BY SHARING THE STОKE OF SURFING WHILE PRESERVING THE FUTURE OF OUR PLAYGROUNDS, THE MOUNTAIN AND THE WAVE.
From our backyard to the open oceans, we aim to lead the charge in keeping our playgrounds safe and healthy for everybody to enjoy.

**Playgrounds**
As individuals, we have the power to make better choices. As a community, the sum of our choices can drive real change. We’re here to inspire our tribe and influence our industry.

**People**

Whether it's the services we provide, the goods we make or the ideas we bring to life, we strive to incorporate environmental and ethical practices into everything we do.

**Products**
SUSTAINABILITY ISN’T A FAD FOR US. OVER THE PAST TWENTY YEARS, IT’S BECOME A PART OF OUR DNA AND IS INGRAINED INTO THE FABRIC OF OUR OPERATIONS AND DECISION-MAKING. WE WOULDN’T BE ABLE TO CONFIDENTLY COMMIT TO OUR FUTURE TARGETS WITHOUT THE WORK WE’VE DONE IN THE PAST. HERE ARE A FEW THINGS WE’RE PROUD OF:
2020
Repreve 200M Bottles Award
So far, we’ve recycled over 200 million bottles and turned them into useful products. That number’s only going up.

2018
Repreve Partnership
We incorporated recycled plastic into even more of our products, including 50% of our outerwear. We also partnered with Repreve, giving us full transparency and confidence in the sourcing of our recycled materials.

2014
Bottles To Boardshorts
By the end of 2014, 80% of our boardshort range already relied on post-consumer recycled plastic bottles to create the fabric, drastically reducing our footprint in this category.

2012
Green Campaign
Created to inspire change, from internal employees to boardriders across the world. Over three years, we raised and donated nearly half a million dollars for clean water initiatives like Reef Check, Surfrider Foundation and Coeur de Forêt.

2010
Eco Campus Designed
The type of place you want to work. Our global headquarters features award-winning environmentally friendly architecture, is plastic-free and, frankly, feels like a treehouse. It’s good for the planet, and for our employees.
Our Progress

SUSTAINABILITY DOESN’T HAVE A FINISH LINE, AND WE’RE COMMITTED TO CONTINUOUS PROGRESS. WHILE THE JOURNEY MAY BE LONG, WE’RE GETTING
BETTER AT EACH STEP ALONG THE WAY.
CONSTANTLY LEARNING, ALWAYS EVOLVING,
ALWAYS IMPROVING.

We’ve created products out of

338,624,850
recycled plastic bottles.
We've avoided 10,530,180 kg of CO2 emissions* by using recycled polyester in the majority of our products.
Continue to progress sustainability in our key products by finding even better ways to make our Boardshorts, Wetsuits, Outdoors, Snow and Womens collections.

Products
Launch a program that invites our community to get involved in our sustainability efforts.

**People**

Use years’ worth of data to commit to and adopt science-based emissions targets.

**Playground**

Drive 50% of our business via sustainable goods and services.

**Products**

Rally our internal & external community to shift from participation to commitment.
Launch our Mountain & Wave Regeneration Program and reduce our CO2 emissions.

Playground

Design products for circularity, source natural materials from regenerative agriculture, employ a high standard of production and offer sustainable services.

Products

Inspire lasting change by leveraging our community in our regeneration efforts.

People

Work toward Climate Positivity thanks to our Mountain & Wave Regeneration Program.
