The need to introduce ESG criteria into the core of our business lines includes our responsible investment charge customer relations and developing our products and services for the ecological transition, natural capital, local development and climate; social and biodiversity aspects of our activities.

The Sustainable Development Goals target 17 themes and 94 criteria, including
- Sustainable bonds or loans;
- Equity-linked capital in which the company is entitled to a share of dividends, capital gains or losses proportional to the amount invested, depending on the relevant legal or regulatory framework.
- Shareholder rights (e.g., the right to propose amendments to the general meeting);
- Executive remuneration linked to annual ESG performance indicators.
- Use of the Proceeds of Sustainability-Linked Bonds (linked to specific ESG-related performance indicators).
- Companies that have put in place a reasonable governance framework.
- Companies that have put in place a reasonable environmental management framework.
- Companies that have put in place a reasonable social management framework.
- Companies that have put in place a reasonable biodiversity management framework.
- Companies that have put in place a reasonable corporate governance framework.
- Companies that have put in place a reasonable environmental management framework.
