In the factory and beyond, how robots are enhancing our world

Once a vision of the future, robots are helping humans become more productive, efficient and safe in almost any setting.

New products

- **DIRECTION-CONTROLLED VOLTAGE TRANSLATORS**
  - SN74AVCH4T245-Q1
    - Automotive 4-bit dual-supply bus transceiver with configurable voltage-level shifting and bus hold
    - Approx. price (USD) 1ku | 0.55

- **GENERAL-PURPOSE OP AMPS**
  - TLV9052-Q1
    - Automotive, single, 5.5V, 5MHz, 15V/μs slew rate, RRIO operational amplifier
    - Approx. price (USD) 1ku | 0.18

- **LOW-SIDE DRIVERS**
  - UCC57108-Q1
    - Low-Side Driver with DESAT and 8V UVLO
    - Approx. price (USD) 1ku | 0.65
How our employees are living out our legacy of giving back

From helping refugees resettle into new homes to removing barriers to education for students, our employees are coming together to build stronger communities.

At our core, we have a passion to create a better world by making electronics more affordable through semiconductors. This passion is alive today as we continue to pioneer advances in integrated circuits. Each generation of innovation builds upon the last to make technology smaller, more efficient, more reliable and more affordable – opening new markets and making it possible for semiconductors to go into electronics everywhere. We think of this as Engineering Progress.
