## Supplier Responsibility

We are committed to supporting ethical business conduct, respecting human rights and responsibly sourcing materials throughout our global supply chain. We outsource most of our manufacturing and strive to work with responsible supply chain partners that are leaders in the industry. Broadcom's goal is to help build a responsible, resilient and reliable supply chain.

### Supplier Environmental and Social Responsibility Code of Conduct

Our Supplier Environmental and Social Responsibility Code of Conduct (Supplier Code), which reflects the Responsible Business Alliance's Code of Conduct, is the foundation of our responsible sourcing practices. Our Supplier Code, along with our contract and purchase order terms, establish our expectations regarding workplace standards and business practices for our suppliers—including with respect to labor and human rights, health and safety, the environment and anti-corruption.

### Respecting Human Rights

We are committed to respecting human rights and avoiding complicity in any human rights abuse throughout our company, operations, supply chain and communities. Respecting human rights, particularly the rights of people in vulnerable communities (women, children and migrant workers) is a shared responsibility, and we strive to align our approach and actions with the UN Guiding Principles on Business and Human Rights.

We comply with the U.S. federal government's requirements for government contractors, as set forth in our internal Combating Trafficking in Persons Compliance Plan. We also publish an annual Statement Against Modern Slavery and Human Trafficking, in compliance with the California Transparency in Supply Chains Act, the U.K. Modern Slavery Act and the Australian Modern Slavery Act.

## Responsible Business Alliance

We are a member of the Responsible Business Alliance (RBA). RBA's mission is to have its members and their suppliers and stakeholders collaborate to improve working and environmental conditions through leading standards and practices. We are committed to upholding RBA's vision of a global electronics industry that creates sustainable value for workers, the environment and business.

## Responsible Minerals Sourcing

We are committed to socially responsible sourcing of conflict minerals (cassiterite, columbite-tantalite, gold, wolframite, and/or their derivatives, tin, tantalum and tungsten) included in our products.

We are a member of the Responsible Minerals Initiative (RMI) and leverage the RMI's resources to conduct our conflict minerals supply chain due diligence, including using RMI's database of suppliers that are listed on the Responsible Minerals Assurance Process (RMAP) Conformant Smelter List.

## Supplier Diversity

We seek to source goods and services from minority-owned, woman-owned, historically underutilized businesses, veteran-owned, service-disabled veteran-owned, small and disadvantaged businesses that are able to provide quality goods and services in a timely and competitive manner. To support this program, we provide relevant employees with training on supplier diversity and integrate supplier diversity considerations into our supplier onboarding process.

For more information on being a Broadcom supplier, please contact [supplier.diversity@broadcom.com](mailto:supplier.diversity@broadcom.com).
