Corporate Responsibility

Our mission is to power connections and empower change—to be a responsible global citizen and influence meaningful differences in the world around us. In everything we do, we act with a commitment to our customers, employees, partners and the planet.

Our commitment to the global community

Upholding the highest standards doesn’t just apply to our products and services. We’re passionate about operating sustainably and maintaining a responsible supply chain. Most importantly, we want to help our customers realize their commitments.

From compliance and ethics to environmental sustainability and philanthropy, we’re championing innovation and higher standards in our sector.

We continue to drive sustainable operations—connecting communities through technology and fostering an inclusive and diverse workforce.
Accessibility

Empowering our workforce

We’re building an innovative workplace that has inclusion at its core and enriches our organization with people of many experiences and thinking styles. We want Juniper to be a place where everyone feels welcome and valued. Inclusion and diversity foster innovation and are competitive assets.

Philanthropy

Making connections that matter

Our corporate philanthropy and employees’ generosity help to bring about meaningful change. Together, we’re building community and inspiring the next generation of thought leaders.

Learn more →
Quality Management

Quality that's certified

Continuous improvement is key to building the best networks and highest levels of satisfaction for our customers. Our Quality Management System (QMS) has been certified by a third-party certification body.

Green Networking

Going beyond compliance

Our networks have enabled a digital transformation, but they’re also one of the largest contributors to our environmental footprint. We believe the world’s challenges can only be solved together. That’s why we’re delivering products that are environmentally responsible in all phases of their lifecycles while empowering our customers and partners to act sustainably.

Operations

Operating responsibly, contributing positively

As a responsible corporate citizen, we’re committed to excellence across our operations. From complying with regulations and reducing risk to fostering pollution prevention and promoting employee involvement, we’re never satisfied with the status quo—and are always looking for ways to improve.

International Trade

Trading beyond our border

As a global organization, we recognize the importance of strict legal controls on the import, export, re-export, and use of our products and technology. These controls—both U.S. and common controls, and those of other countries—extend to our suppliers, vendors, and channel partners.

Confused about compliance?

Trade controls are complex and can vary significantly across countries and jurisdictions. If you have questions about the export classification of Juniper products and can’t find the information you need in the Products Classification Lookup Tool, or you want to know more about our export control compliance policy, please contact our Trade Compliance helpdesk.

Brand Protection

We safeguard Juniper’s brand and customers by preventing and mitigating gray market, counterfeit, service abuse, and license abuse.

What are gray market products?

Gray market products are Juniper products diverted from Juniper-authorized channels. Protect your network with best practices.

Looking for reassurance on your partners or products?

The Brand Protection team can assist in confirming you are working with authorized channel partners (Partner Locator) and that the products you are trusting in your network are sourced from our authorized channel and as represented in the marketplace.
