About Mammut
What started as a small family-based rope factory in 1862 has become a global innovative outdoor and sportswear brand. MAMMUT stands for Swiss quality, for high performance and long lasting mountain equipment. In 2008 we joined Fair Wear Foundation as one of the first outdoor brands. This happened as part of our sustainability strategy “WE CARE”, where we focus on clean production processes, animal welfare, reducing our company’s footprint and foster ethical production. Yes, we do care about our planet, about nature and people - that’s why we strive to build sustainable and fair products. We want to contribute our part to make sure that future generations may still be alpinists.
