About Rab
Our story began in 1981 in the attic of a small, terraced house in Sheffield where Rab Carrington made the first sleeping bag to bear his name. Hand-stitched and devised with his own ingenious eye, Rab’s experience from years spent in the mountains was apparent in his designs, and soon there was popular demand both from friends and the growing local climbing community. Today, we are ceaseless in our commitment to Rab’s exacting standards, ingenuity and pioneering spirit. We make rugged, high performance mountain clothing and equipment that give you absolute protection, comfort and freedom on the hill, crag or peak. We use cutting edge materials as well as time-tested ones such as premium quality European down. Nothing fancy or over-engineered - just honest, hard-working pieces that you’d rather repair than replace. By climbers for climbers. More than thirty years since our founding, we continue to find inspiration in the untamed spirit of the mountains where we climb, the friendships we forge on the peak and our enduring mission: to awaken the climber in everyone and equip them for the ascent. The percentage of factories disclosed by this brand will be visible after its first performance.
