

Sustainability Report

Introduction to Sustainability Report

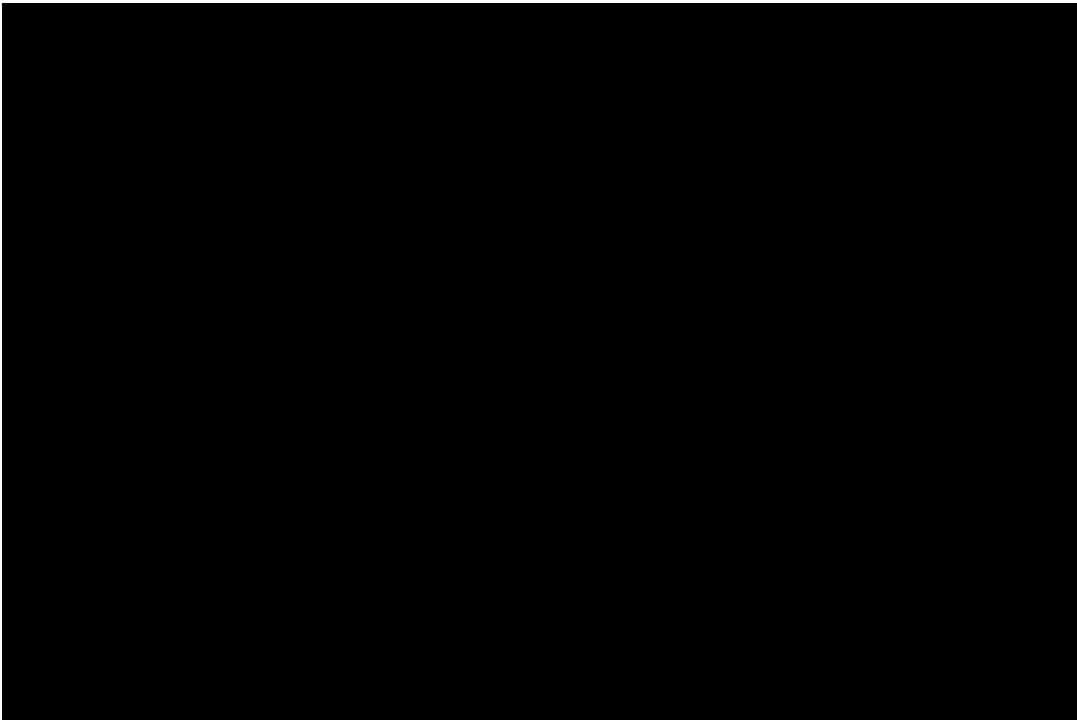

Hana Financial Group wishes to contribute to the **sustainable development** of our society by transparently disclosing the status and achievements of its sustainable management activities to stakeholders through a sustainable management report as well as collect the opinions of stakeholders so that it may reflect them in its management practices.

With the aim of becoming a trusted, premier global financial group, Hana Financial Group conducts its sustainable management activities based on clear communications with diverse stakeholders.

The 2017 Sustainability Report presents the outcomes of the sustainable management activities that the Group carried out in 2017 and the Group's plans for future activities, focusing on three key strategies and six major issues of the Group, which are in compliance with the SDGs of the United Nations.

Readers can review the specific details and accomplishments of the sustainable management activities carried out by the Group in areas related to the economy, environment and society from January 1 to December 31, 2017. In addition, some activities carried out in 2018 that do not fall within the reporting period have also been included, due to their significance to the Group of necessity of prompt coverage. To commemorate the publication of the 11th Sustainability Report, this report also covers the milestone achievements of Hana Financial Group's corporate social responsibility activities over the past 11 years.

The 2017 Sustainability Report of Hana Financial Group is prepared in accordance with the reporting principles of the GRI Sustainability Reporting Standards and contains an in-depth report on matters that are of greatest importance to stakeholders, based on an assessment for their respective priority levels.
