Modern Slavery Statement

J&P Building Systems Ltd. is committed to the elimination of modern slavery and human trafficking in all their forms both within the company and in its supply chain.

J&P Building Systems Ltd. is privately owned and provides design solutions to the construction industry, offering both off-the-shelf products and bespoke design solutions. We also provide design guidance, technical support and sales and pricing assistance.

Our supply chain includes the sourcing of construction materials and products which are sourced and manufactured in the EU. We do not knowingly deal with any business that is involved in slavery or human trafficking. We review the policies, procedures and practices undertaken by our suppliers to eliminate slavery and human trafficking as part of our due diligence processes. Sources of supplies imported from outside the UK are continuously monitored to ensure that slavery and human trafficking are not taking place.

To achieve this:

- We build longstanding relationships with our suppliers.
- We prefer to deal with a point of contact in the UK or Germany wherever possible.
- We require our suppliers to have policies and procedures in place to eliminate slavery and human trafficking compatible with our standards and ethical business practices.
- We have policies and procedures in place to encourage the reporting of concerns and to protect whistle blowers.

The Directors have responsibility for implementing this Modern Slavery Statement and are committed to providing the resources and training to support this policy.

This statement is pursuant to section 54(1) of the Modern Slavery Act 2015 and constitutes our slavery and human trafficking statement for the current financial year.

Herman Maier
