HICL is a UK-listed infrastructure investment company. We invest in infrastructure for local communities and to support the delivery of essential services, working in partnership with the public and private sectors.

Our portfolio includes:

- Public-private partnerships, where our portfolio companies design, finance, build, operate and maintain infrastructure to support the delivery of public services, and performance is assessed against contracted quality standards;
- Regulated infrastructure, where our portfolio companies enhance, operate and maintain monopoly infrastructure where performance standards and pricing are subject to regulatory oversight; and
- Demand-based infrastructure, where our portfolio companies are contracted to design, finance, build, operate and maintain infrastructure where their usage determines financial performance.

For stakeholders, we apply responsible investment principles through our Investment Manager, InfraRed Capital Partners, to ensure the availability and quality of infrastructure for all users, whether a road, a school or a hospital.

For shareholders, including institutional and retail investors, we provide long-term, sustainable value from a diversified portfolio of infrastructure investments.
