Transparent supply chain

Our network of suppliers spans 25 countries and includes
hundreds of globally interlinked partners.

Ensuring that our products are made in a clean and responsible way requires that we know a lot about our supply chain partners. Over recent years we have drastically reduced the number of supply chain partners we work with so that we can go beyond building business relationships and instead focus on creating a collaborative community. Working with fewer suppliers enables us to really know them, understand their needs and challenges, and support them to achieve our standards.

Ensure transparency

Map and publish our Tier 1 and Tier 2 suppliers every six months (ongoing)

Map and publish key Tier 3 suppliers every six months

Remark: The progress is an estimation based on the Tier 3 supplier data of FY17/18. We expect to have a more comprehensive data collection in FY18/19.
