

Novartis Health, Safety and Environment (HSE) Data 2019

10/01/2020

The 9+3 Reporting Process

HSE data is collected and reviewed on a quarterly basis. The 2019 environmental and resource data published in the Annual Report and in the Novartis in Society Report are actual data for the period from January through September and best estimates for the period October through December. This data will be updated with actual data in the first quarter of 2020. Significant deviations will be reported on our website and restated in next year's Annual Report. The Employees and Health/Safety data are actual from January through December 2019.
