## Big changes to protect the planet

With ambitious goals and immediate action, Amazon is building a sustainable business for our customers and the planet. [SEE OUR GOALS](#)

# Sustainability

At Amazon, we are committed to and invested in sustainability because it's a win all around – it's good for business, the planet, our customers, and our communities.

- 01 **Committed to a sustainable future**
- 02 **Packaging**

Sustainability

## Driving design to combat climate change

Delivery associates helped design Amazon's new fleet of electric delivery vehicles with safety and sustainability in mind.

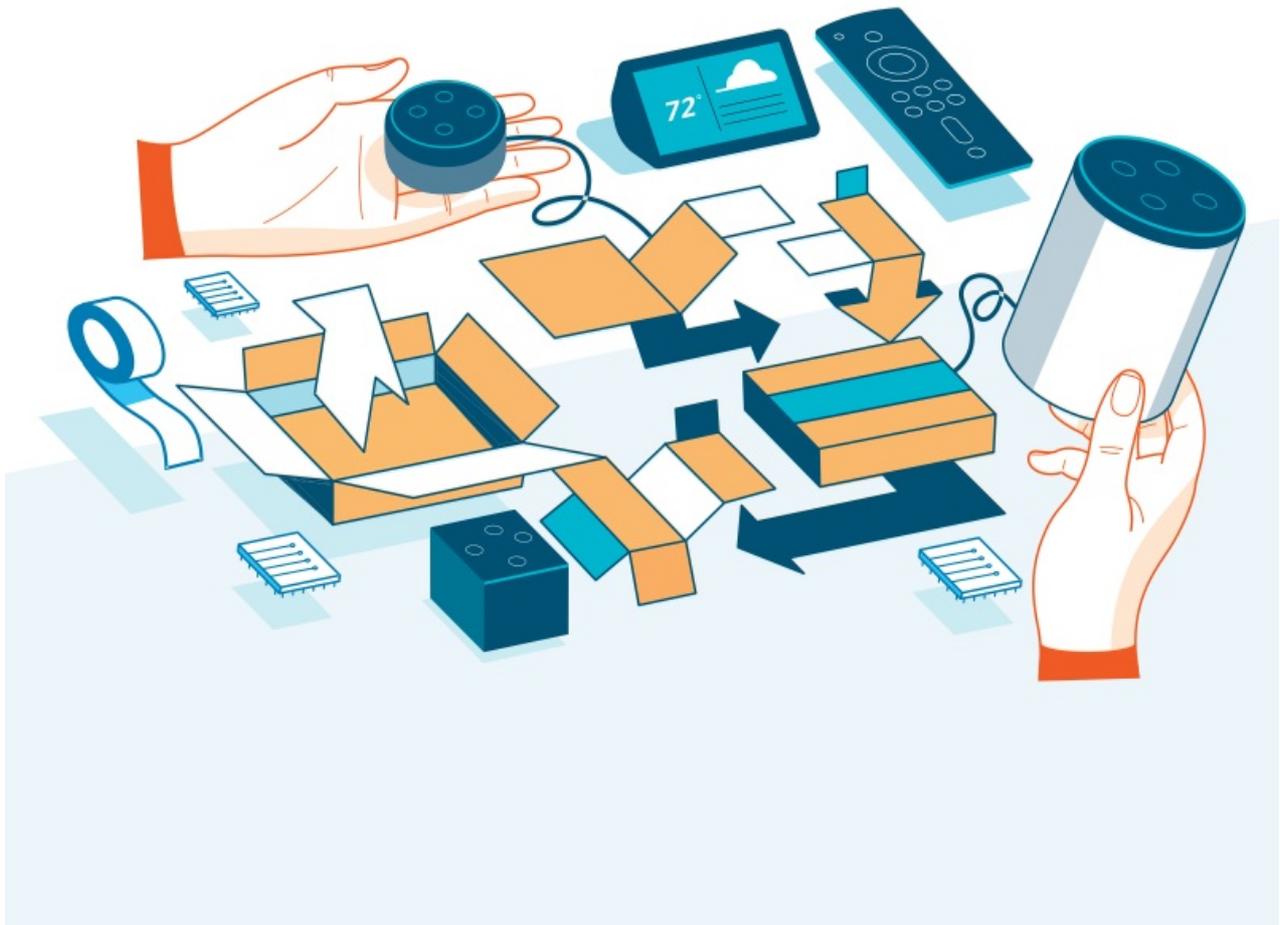

[CONTINUE READING](#)

## Sustainable operations

We are taking a broad, science-based approach to measuring and reducing carbon emissions in our operations.

[CONTINUE READING](#)

## Packaging and products

Redesigning packaging to reduce waste and making our private-label products in responsible ways.

[CONTINUE READING](#)

## Social responsibility

Amazon is strongly committed to conducting our business in a lawful and ethical manner, including engaging with suppliers who respect human rights, provide safe and inclusive workplaces, and promote a sustainable future.

[CONTINUE READING](#)

## Employees and communities

Amazon is committed to supporting people—customers, employees, and communities—through initiatives ranging from disaster relief to veteran employment.

[CONTINUE READING](#)

## Sustainability in the cloud

AWS is committed to running our business in the most environmentally-friendly way possible. As part of Amazon's commitment to achieving 100% renewable energy, AWS exceeded 50% renewable energy usage for 2018.

[CONTINUE READING](#)

## Tech for good

We pride ourselves on building a culture of innovation, and using our technology resources to help customers, employees, and society. Our employees constantly think about how to invent for good—what products and services we can build that customers need today and in the future.
