Modern slavery statement

Modern slavery is a complex crime and a violation of fundamental human rights.
Investing in CMC Markets derivative products carries significant risks and is not suitable for all investors. CFDs are complex instruments and come with a high risk of losing money rapidly due to leverage. **78% of retail investor accounts lose money when spread betting and/or trading CFDs with this provider.** You should consider whether you understand how spread bets and CFDs work and whether you can afford to take the high risk of losing your money. You do not own, or have any interest in, the underlying assets. We recommend that you seek independent advice and ensure you fully understand the risks involved before trading. Spreads may widen depending on liquidity and market volatility. The information on this website is prepared without considering your objectives, financial situation or needs. Consequently, you should consider the information in light of your objectives, financial situation and needs.

Professional clients: Countdowns carry a level of risk to your capital as you could lose all of your investment. This products may not be suitable for all clients therefore ensure you understand the risks and seek independent advice. Invest only what you can afford to lose. Losses can exceed deposits when spread betting and trading CFDs.
