Bumitama Agri Ltd. is one of the leading producers of palm oil (PO) & palm kernel (PK), with oil palm plantation in Indonesia. Listed on the Singapore Exchange since 2012, our primary business activities are cultivating oil palm trees, as well as harvesting and processing fresh palm fruit bunches (FFB) into PO and PK, which we sell to refineries in Indonesia.

Our operations are strategically located in three provinces in Indonesia; namely Central Kalimantan, West Kalimantan and Riau, areas which are well-suited for the oil palm industry. As of 31 December 2019, we own and/or control an approximately of 234,000 hectares of land (including land under the Plasma Programme), of which 187,567 hectares are planted area. Our Group are in the early matured age category with 90.7% of the planted area as at 31 December 2019. Bumitama is poised to take advantage of production growth opportunities as the oil palm trees mature and achieve peak production.

Bumitama is committed to sustainable palm oil development, guided by its Sustainability Policy, and adhering to the mandatory requirement of Indonesian Sustainable Palm Oil and is a member of the internationally recognised Roundtable on Sustainable Palm Oil.
