

Based on information received by the company via email, on December 2021 :

Is a stable price guaranteed to suppliers regardless of world price fluctuation?

Orta: Unfortunately no. Pricing was used to be more stable before covid times as you can imagine. But due to exchange fluctuations in Turkey and price increases on energy, chemicals and fibers it is really challenging to keep our prices at steady. That is why we now mainly work with short term agreements with our customers. With some customers of course we evaluate price guarantee issue but those are usually project based agreements.
